Formed Tenderloin Steaks

We are excited to introduce to you a product that is years in the making. Using natural enzymes, we have started forming tenderloins together to make them 100% usable and 100% center cut. These high profile uniform steaks eat exactly the same as their true center-cut brethren, have nearly zero loss, and are a significant cost savings. Ask us about the product and we'll send you a sample; your food cost will thank you.
